This position is funded from trust funds collected from various sources.

Duties:

Gathers and analyzes data in order to determine reliability of electric utility transmission and distribution systems to ensure that companies have prepared for and properly responded to emergency events; confers with local, state and federal government authorities, community leaders and others as part of the adjudication of such plans; prepares reports and draft decisions of the Department of Public Utilities; responds to inquiries; ensures that electric distribution companies in Massachusetts are operated in a manner that ensures a reliable energy supply for the Commonwealth with a minimum impact on the environment at the lowest possible cost.

Qualifications:

Minimum Entrance Requirements:

Applicants must have at least (A) four years of full- time, or equivalent part-time, technical or professional experience in mechanical engineering or electrical engineering work, the major duties of which included the design, construction or operation of facilities for the generation, transmission and/or distribution of light, heat and power and (B) of which at least two years must have been in a professional capacity, or (C) any equivalent combination of the required experience and the substitutions below.

Substitutions:

I. An Associate's degree with a major in mechanical engineering, mechanical engineering technology, electrical engineering or electrical engineering technology may be substituted for a maximum of one year of the required (A) experience.*

II. A Bachelor's degree with a major in mechanical engineering, mechanical engineering technology, or electrical engineering technology or electrical engineering may be substituted for a maximum of two years of the required (A) experience.*

III. A Graduate degree with a major in mechanical engineering, mechanical engineering technology, or electrical engineering technology may be substituted for a maximum of two years of the required (A) experience and one year of the required (B) experience.*

*Education toward such a degree will be prorated on the basis of the proportion of the requirements actually completed.

NOTE: Educational substitution will only be permitted for a maximum of one year of the required (B) experience.

Special Requirements: Possession of a current and valid Massachusetts Class D Motor Vehicle Operator's license.

Comments:

This is a Civil Service position. If there is no civil service list for this title, employees appointed must take and pass the next Civil Service examination when administered.

Salary is commensurate with experience.

Possession of a current and valid Massachusetts Class D Motor Vehicle Operator's license.
